

Message from the Chairman

I wanted to send a brief message to all of our supporters on the impact the Covid-19 has had on our organisation and how we are continuing to support our staff and our projects.

We are living in unprecedented times of uncertainty and new challenges that we have not faced for many years.

I know many of you will be suffering disruption to your businesses, as well as to your personal life and want you to know that you are all in our thoughts.

At Jewish Child's Day, our primary concern starts with our staff in the office and we are working with the entire team to make sure that they, and their families, are safe and well. We also want to make sure JCD can continue to operate and support the grantees and numerous worthy projects around the world. It is so tragic to see how this virus has disrupted and affected lives in all the countries we have supported and are reaching out to our grantees to see what more we can do now. The dramatic spread and impact of this virus may have also presented new challenges to our many projects and we are keen to offer additional assistance and support if we can.

We are suspending any planned events and hope to be back to full operations in the near future.

On behalf of Jewish Child's Day, I would like all of our supporters to know that we are thinking of you and thank you for your continued commitment during these uncertain and volatile times.

Please keep safe and well.

Charles Spungin
